### INDOOR BOILERS

**Easy Installation - Owners Manual Includes Step by Step Color Illustrations & Photos**

**Easy Monthly Payments**

**"Connects to Any Existing Heating System"**

Boiler sits inside or outside **HEATS** • Home • Shop • Barn  
• Domestic Water • Pool • Greenhouse, etc... with wood

**\*30 YEAR REPLACEMENT WARRANTY  
ON CERTIFIED 1/4" BOILER PLATE UNITS**

**Connects to Forced Air or Hotwater**  
infloor heating, hot water baseboards, overhead blowers

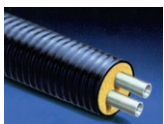

#### Forced Air Heating

If you presently heat with an existing Forced Air System, you simply install a water-radiator in your existing duct work and let the outdoor furnace take over the heating. Your existing furnace can stay in place as the back-up system.

#### Existing Boiler Heating

With an Existing Boiler (gas, oil, electric), our furnace can be hooked into the old system, which can then remain as the back-up.

THE HOT WATER IS CIRCULATED TO DIFFERENT BUILDINGS IN UNDERGROUND INSULATED PIPES

INCLUDES SHAKER GRATES SO IT CAN EFFICIENTLY BURN BOTH WOOD OR COAL!

Made by Quality Craftsmen

(Models may not be exactly as shown - weights are approximate)

**Dealerships are available.**
